Check Code :- Github

EXPERIENCE

Postman API Fest (Hackathon)   Jan 2022
Front-end Developer
- Created React.js based responsive UI for the web app as a part of web project in the hackathon.
- Used the data fetched from the API (backend managed by one of my teammate) to render in the app.
- Learned how to use Fastify and Express to create RESTful API.

Coding Ninjas (Volunteering)   Sep 2020 - present
Campus Ambassador

- Organised online session on Carrier in Web Development in college campus.
- Conducted an online bootcamp on Rest API in association with GDSC of college.
